Comments from some of our current customers:

"Super Soccer's new service offers us all the sports betting to compete in today's market with a full range of events and a most comprehensive range of early morning horse prices with current updates. It's just what we need. Their policy of showing the players current scores after the first round of golf tournaments helps my customers when making their selections. The service covers a vast range of football with markets on all live games and in today's competitive market we can compete with the bigger firms. The Super Soccer service is a real winner."

Gary Barrett from Barrett Bookmakers, Dundee

"10 out of 10 for service, and excellent understanding of independant bookmakers requirements, with very capable staff to boot! Keep up the good work."

Tony Heslop from ADM Racing, Wythenshawe, Manchester

"We have been using the new Super Soccer service and it's a hundred times better than our previous service. The amount of sports on the screens is a vast improvement. Racing updates have been very good with market moves reflected quickly 99% of the time, this gives us added confidence in the service."

Lester from Boshers, Guernsey

"We are very impressed with this new service from Super Soccer. There is much more ante-post on our screens. Now we have a really comprehensive service. Keep up the good work."

Brian from Stan Ephgrave, Guernsey
